BEEF LOIN BNLS COULOTTE 1/2

Image of product is not meant to represent the actual product trim specification

The Beef Loin Sirloin Coulotte muscle is derived from a boneless top butt. It is the underlying muscle just under the surface fat on the dorsal edge where the back bone was removed. The Coulotte is separated from the boneless top butt along the natural seam. Surface fat is trimmed to a maximum 1/2" thickness, inside fat and blue tissue are removed.
